Senior planner of UDD conducting introduction session with briefing on project's goals and objectives

Findings:

- Inadequate communication facility (particularly mentioned **Road facility**)
- 2. Lack of cyclone shelter
- 3. Lack of educational institution
- 4. Lack of proper drainage system
- 5. Lack of lamppost
- 6. Lack of health facilities
- 7. Lack of sewerage system
- 8. Lack of graveyard
- 9. Eidgah field
- 10. Absence of playing field.
- 11. Canal digging.

	Reasons of Problem	Solution of the Problem
I.	Inadequate communication facility - Narrow roads - No maintenance of existing roads - Inadequate road networks	 Constructing road Widening road Constructing bus stoppage Installing CCTV cameras
II.	Lack of educational institutions - Not having enough schools and colleges - Current ones are not giving very quality education	- Establishing new schools and colleges.
III.	Lack of cyclone center - Existing schools are currently using as a cyclone center which is highly vulnerable.	Constructing cyclone shelter
IV.	Lack of proper drainage system - Water logging - Filling up of canal	Digging canalConstructing culvertConstructing drain
V.	Necessity for lamppost - Enables drug related crimes at night To increase the quality of mobility at night	Constructing adequate lamppost
VI.	Proper health facilities - No enrolment system - Lack of permanent doctors, nurses - Lack of medical equipment - Lack of Ambulance	Need ambulance Employing permanent doctors and providing modern equipment and medicines.
VII	Lack of sewerage system - There is no public toilet Proper sewerage pipes are not introduced.	 Constructing public toilets. Establish sewerage pipe system.
VIII	Lack of graveyard - No graveyard	- Constructing graveyard
IX	Lack of Eidgah	- Allot space for Eidgah
X	Absence of playing field - No adjacent playing fields with educational institutions.	 Improving primary school infrastructure Constructing playing field Establishing college
XI	Canal Digging - Existing's are almost filled up by various pollution and human activities.	- Necessary for proper drainage system.

Ranking of the problems and potentials of Ward no. 01 identified by the respondents

PRA in Ward no. 02 of Kuakata Paurasava

Date: 26 th November 2020	Time: 04:00 pm
Venue: Panjupara Govt. Primary School,	Number of Participants: 12
Kuakata.	
Participant's information	

Senior planner of UDD conducting introduction session with briefing on project's goals and objectives

Findings

a. Problems identified by the participants:

- i. Water logging
- ii. Poor health facility
- iii. Scarcity of pure drinking water
- iv. Poor Road network
- v. Lack of educational institute
- vi. Marin drive
- vii. Absence of cyclone center
- viii. Absence of play ground
 - ix. Waste management
 - x. Absence Cultural center
 - xi. Absence of market
- xii. Absence of stadium

b. Reasons behind the mentioned problems and solution of the problems proposed by the respondents:

	by the respondents:	
	Reasons of Problem	Solution of the Problem
I.	Water logging	Digging canal
	- Poor drainage system	Constructing drain
	- Natural flow of water blocked	
II.	Poor health facility	 New medical facilities
	- No residential facility in nearby	Emergency medical center)
	hospital	
	- No emergency medical facility for	
	tourists	
III.	Scarcity of pure drinking water	Installing Paurashava-operated
	- Depletion of ground water level	water supply line
	- Insufficient deep tube-well	
	- Reddish color water because of	
	presence of excessive iron	
IV.	Poor Road network	 Creating new roads
	 Poor road condition 	 Connecting roads between words
	- Absence of internal connectivity	
V.	<u>Lack of educational institute</u>	 Constructing new cyclone center
	- Existing educational institution	with school.
	condition is very poor.	■ Higher secondary school
	- Absence of higher educational	constration
VI.	facilities Marin drive	New road construction with
V 1.	Marin drive	 New road construction with marin drive
X7TT	A1 C 1	
VII.	Absence of cyclone center	Constructing a cyclone center to
	- No cyclone center in the ward	accommodate both local residents and tourists
.7 TTT	- Hotels are used in case of emergency	
VIII.	Absence of play ground	rinocating playing notes
IV	- No playing ground for kids and youths	adjacent to local schools
IX.	Waste management	Improve the waste management
	- Poor management for waste collection	system Allogation for domning site
v	- Lack of damping station	Allocation for damping site Initiative for cultural improvement
X.	Absence Cultural center	 Initative for cultural improvent and cultural center
VI	- <u>Lack of initative</u>	
XI.	Absence of market	Allot a place for market or growth centre
VII	- No allocation for market place	growth centre
XII.	Absence of stadium	 New stadium constration

c. Ranking of the problems and potentials of Ward no. 02 identified by the respondents

- 6. Scarcity of pure drinking water
- 7. Poor health facility
- 8. Absence of cyclone center

PROBLEMS

- 9. Lack of educational institute
- 10. Road network

- 6. Lack of pure drinking water
- 7. Poor health facilities

Senior planner of UDD conducting introduction session with briefing on project's goals and objectives

Findings

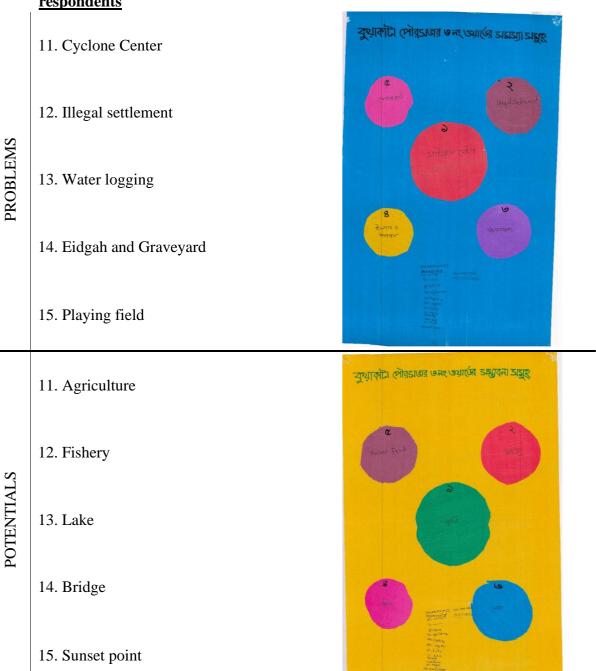

a. Problems identified by the participants:

- xiii. Decaying embankment
- xiv. Absence of proper drainage system
- xv. Illegal settlement caused by tourism-based businesses
- xvi. Absence of cyclone center
- xvii. Absence of Graveyard
- xviii. No playing ground
 - xix. Sound pollution caused by tourist vehicles
 - xx. Solid waste generated by tourists and tourism-based businesses
 - xxi. Lack of medical facility

b. Reasons behind the mentioned problems and solution of the problems proposed by the respondents:

	by the respondents:	
	Reasons of Problem	Solution of the Problem
XIII.	Decaying embankment	Reconstructing and extending
	- Erosion of sea	embankment
	- Beautification	
XIV.	Absence of proper drainage	Digging canal
	- Water logging	 Constructing culvert
	- Filling up of canal for establishing	 Constructing drain
	motels and residences	
	- No drainage system	
XV.	Illegal settlement caused by tourism-based	 Resettlement programme to
	businesses	rehabilitate these migrant
	- hampering beauty of the tourist site	workers.
	- creating violence-based society	
XVI.	Absence of cyclone center	 Constructing a cyclone center to
	- No cyclone center in the ward	accommodate both local
	- Hotels are used in case of emergency	residents and tourists
VII.	Absence of an Eidgah and Graveyard	 Allocating land for Eidgah and
	- No Eidgah	graveyard
	- No public graveyard	
VIII.	No playing ground	 Allocating playing fields
	- No playing ground for kids and youths	adjacent to local schools
XIX.	Sound pollution caused by tourist vehicles	 Relocating the bus terminal
	- Main bus terminal, important hotels	 Identifying the beach area as "No
	and lodges are located in the ward area	Horn Zone"
	- Tourist vehicles cause sound pollution	
XX.	Solid waste generated by tourists and tourism-	 Sustainable waste collection bins
	based businesses	 Relocating shops to sell these
	- One-time plastic utensils	products
	- Packets and containers of processed	
	foods	
XXI.	Lack of medical facility	Establishing a well functional
	- No emergency medical facility for	clinic
	tourists	
	- No residential facility in nearby	
	hospital

Senior planner of UDD conducting introduction session with briefing on project's goals and objectives

Findings

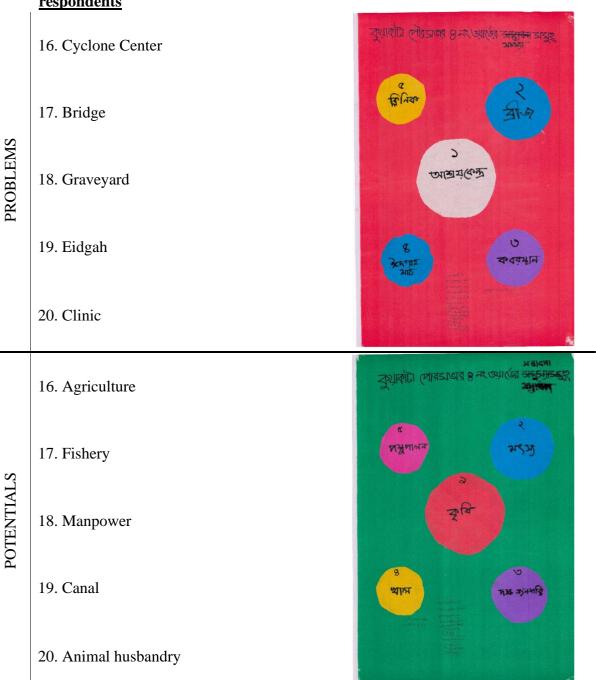

a. Problems identified by the participants:

- xxii. Lack of Graveyard.
- xxiii. Venerable cyclone center.
- xxiv. Lack of playing field.
- xxv. Absence of canal for farming.
- xxvi. Lack of road near the canal.
- xxvii. Lack of permeant bridge.
- xxviii. Lack of health facilities.
 - xxix. Lack of financial institution.
 - xxx. Lack of Eidgah.
 - xxxi. Lack of pure drinking water.

b. Reasons behind the mentioned problems and solution of the problems proposed by the respondents:

	by the respondents.	
	Reasons of Problem	Solution of the Problem
XII.	 Lack of Graveyard Lack of initiative. Lack of allotted land for graveyard. 	Allotted land for graveyard.
XIII.	Vern arable cyclone center.Lack of permanent public building.	 Construct a permanent public building.
XIV.	Lack of playing field. - No adjacent playing fields with educational institutions Lack of open space for playground	 Establishing Educational intuitional with playground.
XV.	Absence of canal for farming Flat land in agricultural area.	 Digging a canal near agricultural field.
XVI.	Lack of road near canal. - Lack of widening road	Construct a road near the canal.
VII.	<u>Lack of permanent bridge.</u>No permanent bridge.	Construct a permanent bridge.
VIII.	Lack of health facilities. - Lack of Clinic, health center Lack of Doctors, Nurse Lack of ambulance. Lack of Financial Institution Lack of Bank.	 Establishing Health center, Clinic center. Appointed Doctors, Nurse. Providing Ambulance services. Establishing Bank.
XX.	Lack of Eidgah Lack of public open space.	Provide land for Eidgah.

PRA in Ward no. 05 of Kuakata Paurasava

Date: 24th November 2020 Time: 03:00pm

Venue: Ward no. 5, Kuakata Paurasava Number of Participants: 15

Participant's information

Senior planner (UDD, Barisal) conducting introduction session with briefing on project's goals and objectives

PRA expert (Planner, UDD Barisal) conducting PRA and note recorded by individual consultant

Findings

Problem identified by participants

- I. Absence of proper drainage system
- II. Inadequate communication facility (particularly mentioned **Road facility**)
- III. Absence of playing field
- IV. Frequent natural calamities
- V. Vulnerable cyclone shelter
- VI. Absence of watch tower for fishermen
- VII. Unavailability of pure drinking water
- VIII. Lack of sanitation system
 - IX. Poor quality of embankment
 - X. Lack of health facilities
 - XI. Lack of lamppost

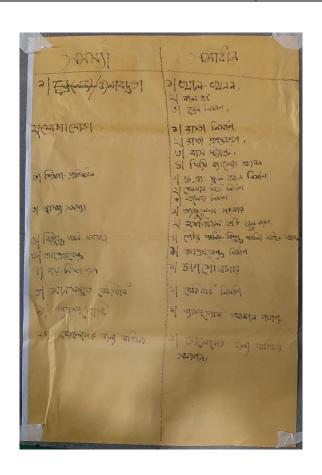

Reasons behind the above mentioned problem and solution of the problem proposed by the respondents:

	Reasons of Problem	Solution of the Problem
I.	Absence of proper drainage system	Digging canal
	- Water logging	Constructing culvert
	- Filling up of canal	Constructing drain
II.	Inadequate communication facility	Constructing road
	- Narrow roads	Widening road
	 No maintenance of existing roads 	 Constructing bus stoppage
	- Inadequate road networks	• Installing CCTV cameras
III.	Absence of playing field	• Improving primary school
	- No adjacent playing fields with	infrastructure
	educational institutions.	 Constructing playing field
		• Establishing college
IV.	Frequent natural calamities	
	 Cyclone affected area 	
	 Near Bay of Bengal 	
V.	<u>Vulnerable cyclone shelter</u>	Constructing cyclone shelter
	- Existing one is very weak in	
	infrastructure	
	 Very cyclone prone area 	
	- 20 Bed hospital is used as cyclone shelter	

VI.	Absence of watch tower for fishermen	Constructing watch tower
-----	--------------------------------------	--------------------------

	- Navigation is difficult		
VII.	Scarcity of pure drinking water - Depletion of ground water level - Insufficient deep tube-well - Reddish colour water because of presence of excessive iron	•	Installing Paurasava-operated water supply line
VIII.	Lack of sanitation system - Maximum toilet are katcha and unhygienic - No public toilet	•	Constructing public toilet
IX.	Poor quality of embankment - Erosion of sea - Beautification	•	Constructing embankment
X.	Lack of health facilities - No enrolment system - Lack of permanent doctors, nurses - Lack of medical equipment - Lack of Ambulance	•	Need ambulance Starting admitting patients in hospital
XI.	Lack of lamppost - Enables drug related crimes at night - To increase the quality of mobility at night	•	Constructing adequate lamppost

Priority based problem ranking by the participants

- 1. Absence of proper drainage system
- 2. Inadequate communication facility
- 3. Infrastructure improvements of educational institutions.
- 4. Inadequate Healthcare facilities
- 5. Safe drinking water.
- 6. Permanent cyclone centre.
- 7. Improvements of sanitation

Social Mapping

Participants claimed that the Paurasava map is not correct; particularly ward boundary and unrecognised roads. They included new areas to the existing map.

Findings

Problem identified by participants

- 1. Communication Problem
- 2. Lack of College and Primary School
- 3. Lack of Graveyard
- 4. Lack of Well Sanitation System
- 5. Lack of Playground/Open Space
- 6. Stadium
- 7. Lack of Cyclone Centre
- 8. Lack of Clinic

Reasons behind the mentioned problem and solution of the problem proposed by the respondents ${\bf r}$

LCD	Johnenes	
	Reasons of Problem	Solution
1	Inadequate Communication Facility	 Constructing road
	 Narrow roads 	- Widening road
	 No maintenance of existing roads 	- Constructing bus stoppage
	 Inadequate road networks 	- Installing CCTV cameras
2	Lack of College and Primary School	- Construct more primary school
	 No college 	for better education
	Lack of primary schools	 Construction of college for providing wider opportunity
3	Lack of Graveyard	- Construct more graveyard
	 Lack of Shashanghat 	based on demand
4	 Lack of Sanitation System Maximum toilet are katcha and unhygienic No public toilet 	- Constructing public toilet
5	Absence of Playground No adjacent playing fields with educational institutions.	 Improving primary school infrastructure Constructing playing field Establishing college
6	Stadium	- Constructing Stadium
	 Lack of a minimum quality based stadium 	
7	Vulnerable Cyclone Shelter	- Constructing cyclone shelter
	 Existing one is very weak in infrastructure 	- Constructing watch tower
	 Very cyclone prone area 	
	 20 bed hospital is used as cyclone shelter 	

	Absence of watch tower for fishermenNavigation is difficult.	
8	Lack of Clinic	- Need ambulance
	 Lack of permanent doctors, nurses 	- Starting admitting patients in
	Lack of medical equipment	hospital
	Lack of Ambulance	

Priority based problem ranking by the participants

- 1. Lack of College and Primary School
- 2. Lack of Graveyard
- 3. Inadequate Communication Facility
- 4. Vulnerable Cyclone Shelter
- 5. Absence of Clinic

Ranking of the problems and potentials of Ward no. 06 identified by the respondents

- 1. Lack of College and Primary School
- 2. Lack of Graveyard
- 3. Inadequate Communication Facility
- 4. Vulnerable Cyclone Shelter

PROBLEMS

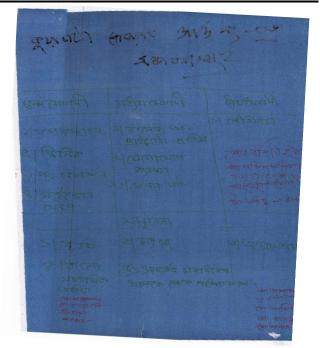

5. Absence of Clinic

- 1. Agriculture
- 2. Fishery
- 3. Agro-farm
- **POTENTIALS**

5. Environmental Advancement

4. Formal Residential Area

Priority based timeline of the solutions of problems proposed by the respondents

Short term (0-5 years)		Medium term (6-10 years)		Long Term (11-20 years)	
i.	Graveyard	i.	Establishing College	i.	Stadium
ii.	Clinic		and Primary Schools		
iii.	Sanitation	ii.	Communication		
	Management		system		
iv.	Cyclone Center	iii.	Playground		

Social mapping

Participants claimed that the paurasava map is not correct; particularly ward boundary and unrecognized roads. They included new areas to the existing map.

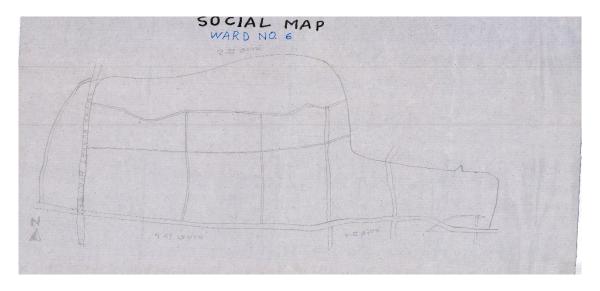

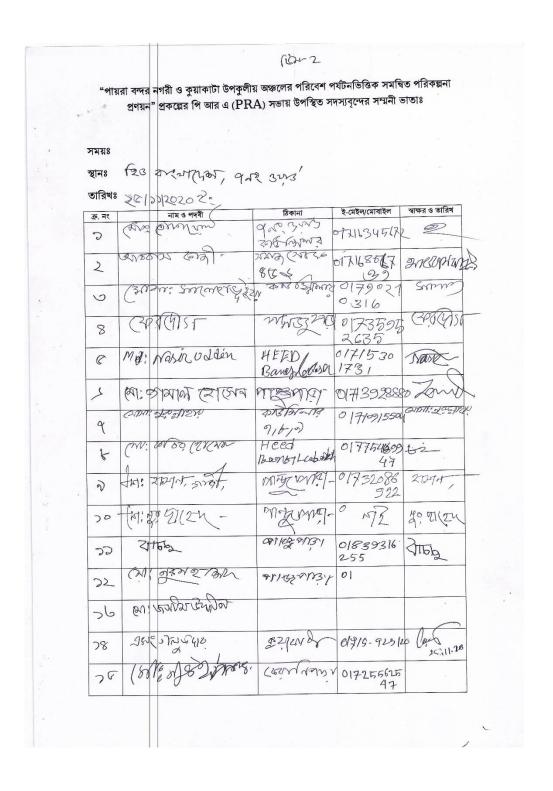

Figure: Social Map of Ward No 06

PRA in Ward no. 07 of Kuakata Paurasava

Date: 25th November 2020 Time: 10: 00pm

Venue: Ward no. 07, Kuakata Paurasava Number of Participants: 15

Participant's information

Findings

a. Problems identified by the participants:

- i. Absence of cyclone center
- ii. Poor transportation facility
- iii. Electricity problem
- iv. Absence of proper drainage system
- v. Scarcity of pure drinking water
- vi. No playing ground
- vii. Lack of medical facility
- viii. Digging canals
 - ix. Marine drive

	Reasons of Problem	Solution of the Problem
I.	Absence of cyclone center - No cyclone center in the ward - Hotels are used in case of emergency	Constructing a cyclone center to accommodate both local residents and tourists
II.	Poor transportation facility - Poor road condition - Absence of internal connectivity	 Creating new roads Connecting roads between Ward 08 to Ward 09 (Jhauban) Constructing bridge between Ward 06 and Ward 08
III.	Electricity problem - Some areas are out of electricity facility	 New electricity connection to disadvantaged areas
IV.	Absence of proper drainage - Water logging - No drainage system	Digging canalConstructing drain
V.	Scarcity of pure drinking water - Depletion of ground water level - Insufficient deep tube-well - Reddish color water because of presence of excessive iron	 Installing Paurashava-operated water supply line
VI.	No playing ground - No playing ground for kids and youths	 Allocating playing fields adjacent to local schools
VII.	 Lack of medical facility No emergency medical facility for tourists No residential facility in nearby hospital 	Establishing a well functional clinic

VIII.	 Digging Canals and Lack of recreational facilities Poor condition of existing lake (canal) Lack of recreational facility 	 Beatification and redevelopment of lake (canal) to create an tourist spot to diversify tourist concentration apart from the Kuakata beach
IX.	Marine drive	

	1. Marine drive	तुशाकार। लोहराखर डाइसिंग डाम्ह
S	2. Proper drainage system	2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2
PROBLEMS	3. Medical facility	600 40 40 6 6 6 6 6 6 6 6 6 6 6 6 6 6 6
	4. Cyclone center	WE CENTY OF THE TOTAL STATE OF THE STATE OF
	5. Communication system (road)	enu.

1. Rakhain market

POTENTIALS

2. E-business center

- 3. Beautification
- 4. Improvements of kuakata canal can add value to tourism in kuakata

Priority based timeline of the solutions of problems proposed by the respondents:

Short	Short term (0-5 years)		Medium term (6-10 years)		Term (11-20 years)
v.	Drainage	iv.	Marine drive	ii.	Stadium
vi.	Waste management	v.	Cyclone center	iii.	Market
vii.	Pure drinking water	vi.	Graveyard	iv.	Cultural center
viii.	Healthcare facility			v.	Playing field
ix.	Communication			vi.	Educational
	system (road).				institution.

Senior planner of UDD conducting introduction session with briefing on project's goals and objectives

Findings

a. Problems identified by the participants:

- i. Absence of proper trasportation
- ii. Unavailability of graveyard
- iii. Absence of playground
- iv. Absence of cyclone center
- v. Unavailability of eidgah
- vi. Lack of fixed place for fishing boat
- vii. Poor healthcare facility
- viii. Lack of sanitation system
- ix. Unavailability of municipality market and local market
- x. Lack of permanent residence

b. Reasons behind the mentioned problems and solution of the problems proposed by the respondents:

	by the respondents:									
	Reasons of Problem	Solution of the Problem								
I.	Absence of proper transportation	 Constructing road 								
	- Narrow roads	 Widening road 								
	- No maintenance of existing roads	 Constructing bus stoppage 								
	- Inadequate road networks	 Installing CCTV cameras 								
II.	 Unavailability of graveyard Lack of fixed land for graveyard. Maximum people have their own family graveyard. 	Provide a fixed land for graveyard.								
III.	Absence of playground - No adjacent playing fields with educational institutions.	 Improving primary school infrastructure Constructing playing field Establishing college 								
IV.	Absence of cyclone center - No cyclone center in the ward - Hotels are used in case of emergency	 Constructing a cyclone center to accommodate both local residents and tourists 								
V.	Absence of an Eidgah - No Eidgah	 Allocating land for Eidgah 								
VI.	Lack of fixed place for fishing boat - Lack of suitable port.	 Provide a permanent port in the bank of see. 								
VII.	Poor healthcare facility - No enrolment system - Lack of permanent doctors, nurses - Lack of medical equipment - Lack of Ambulance	 Need ambulance Starting admitting patients in hospital 								
VIII.	Lack of sanitation system - Maximum toilet are katcha and unhygienic - No public toilet	Constructing public toilet								
IX.	Unavailability of municipality market and local market -	 Constructing market locally as well as municipal scale 								
X.	Lack of permanent residenceLack of housingLack of fixed place for living.	Provide a Housing facilities.Provide a cluster housing.								

c. Ranking of the problems and potentials of Ward no. 03 identified by the respondents

1. Absence of proper transportation

2. Lack of permanent housing

PROBLEMS

- 3. Unavailability of graveyard
- 4. Inadequate healthcare facilities

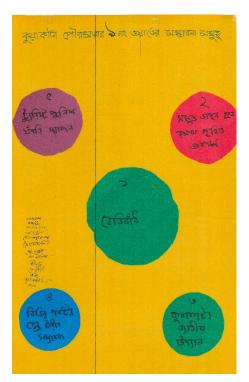

5. Permanent cyclone center.

1. Embankment

POTENTIALS
